Dear Parents and Guardians,

We need you!

Do you have a special skill or talent? Is your job fascinating or unusual? Would you like to come in to school and share your experiences with the children?

There are many and varied opportunities throughout the year which would benefit tremendously from the input of parents. Maybe you are an author, illustrator or work in publishing and would like to share your work on World Book Day. Those who work in the field of science, technology or engineering may want to be part of National Science Week. Maybe you work in the world of art and design and would like to offer your advice and skills to school projects. Those employed as doctors, dentists, nurses, police officers or in other occupations that serve the community, may want to come in and explain a little more about what they do and why it is so important.

We would like to build a database of parents' jobs, skills and talents and may ask you to come in and talk to the children about your work. Obviously your level of involvement would be discussed with you. Some parents may want to come along and assist the teacher, some may want to do a presentation to a class and some may be happy to lead a Junior School assembly. If you are a parent or carer and have a special skill or talent, that you would be willing to share, please complete the form below and return to your child's Form Tutor.

Alternatively your work may produce items that could be donated to the Junior School, for example old tyres that could be used as planters. If this is the case, please indicate on the form below.

Yours sincerely,

A handwritten signature in black ink that reads 'H Singleton'.

Miss Helen Singleton
Complementary Studies Coordinator
